COUNTY ROAD AID COOPERATIVE  
PROGRAM AGREEMENT

THIS AGREEMENT, entered into as of the date of the signature below of the Secretary of the Transportation Cabinet, is made by and between the Commonwealth of Kentucky, Transportation Cabinet, Department of Rural and Municipal Aid ("the Department"), and the Fiscal Court of **ANDERSON** County, Kentucky (the "County").

WHEREAS, Kentucky Revised Statutes (KRS) § 177.320(2) provides that 18.3% of revenue resulting from the imposition of motor fuel taxes on taxpayers pursuant to KRS § 138.220(1)(2), KRS § 138.660(1)(2), and KRS § 234.320 shall be set aside for the construction, reconstruction, and maintenance of county roads and bridges provided by KRS 179.410 and 179.415. ("County Road Aid Funds"), and

WHEREAS, the County has accepted an invitation from the Department to allow it to participate in a cooperative program to aid the County in the construction, reconstruction, and maintenance of certain roads and bridges using its share of the County Road Aid Funds apportioned to it by the Department as provided below (the "Cooperative Program"), and

NOW THEREFORE, in consideration of the terms and conditions contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Department and the County agree as follows:

1. Apportionment of County Road Aid Funds. The County's apportionment of County Road Aid Funds shall be based on revenue estimates supplied by the Office of State Budget Director. For the Fiscal Year beginning July 1, 2026, this amount is **\$765,542.21** (the "Apportionment"). The above referenced estimate is based on the most recent available date and is subject to change according to available revenue. The Apportionment shall be distributed by the

Department to the County in accordance with the terms of this Agreement

2. Assignment of the Apportionment. The County hereby assigns all of its rights, title and interest in and to the Apportionment to the Transportation Cabinet's Division of Accounts for Fiscal Year 2027.

3. Distribution of County Road Aid Funds. The County and the Department agree that the Apportionment shall be distributed by the Department to the County as follows:

a. First Distribution. The Department shall initially distribute to the County sixty percent (60%) of the Apportionment, less three percent (3%) of the Apportionment set aside for the emergency fund below. This initial amount is **\$445,546.00**.

b. Second Distribution. The Department shall distribute up to and including an additional thirty percent (30%) of the Apportionment to the County, less three percent (3%) of the Apportionment set aside for the emergency fund below. The amount of the second distribution will depend on how actual revenues compare to revenue estimates.

c. Final Distribution. The Department shall allocate and distribute the remaining balance of the Apportionment, less three percent (3%) set aside for the emergency fund below. The Final Distribution shall be based on actual revenues tabulated after the end of the fiscal year (June 30).

4. Emergency Funds. The County agrees that three percent (3%) of the Apportionment shall be withheld by the Department in an emergency fund (the "Emergency Fund"). The Emergency Fund shall include three percent (3%) of the total apportionments of all participants in the Cooperative Program, plus any remaining balances from previous fiscal years. The Department, upon written application from a duly authorized representative of the County, may disburse up to fifty percent (50%) of the approved funds to the County for the purpose of it using

said funds for emergency roadway and bridge projects designated by the County. Following the completion of the project, after final cost documentation has been submitted and processed, the Department will then distribute the determined remaining amount. If the actual cost of an emergency project is less than the amount of emergency funds disbursed by the Department, then the County shall reimburse the difference to the Department.

5. Disbursement of Funds. Upon execution of this Agreement, the Department will disburse the foregoing allocated funds directly to the County to pay for materials, labor and equipment necessary for the County to accomplish construction, reconstruction, and maintenance on county roads designated by the County. This assistance is extended insofar as funds are available from the Apportionment. The County shall be responsible for all costs associated with the construction, reconstruction and maintenance of roadways and bridges in excess of the amount of the Apportionment allocated and disbursed by the Department to the County. The Department may assist the County in fulfilling its needs by disbursing funds to the County for materials and work performed by contract, for materials obtained by contract and for the rental or purchase of road maintenance and construction equipment. Any rental rates shall be based on the current edition of the "Blue Book for Rental of Equipment" or the Department's official rental rates. The Department may also disburse funds to the County for the hourly rate for personnel who perform the work. This rate may include employee fringe benefits such as leave overlay, retirement, social security, insurance, etc.

6. Use of County Road Aid Funds. The County agrees and certifies that the Apportionment will be expended by the County solely for the purpose of construction, reconstruction, and maintenance of county roads as defined in KRS § 178.010(1)(b).

7. Rights of Way. The County, if required under applicable law, will acquire any

rights-of-way contemplated under this Agreement and assumes responsibility for any claims for damages arising from such acquisitions

8. Indemnification. The County shall fully indemnify, hold harmless and defend the Department from and against all claims, actions, suits, demands, damages, liabilities, obligations, losses, settlements, judgments, costs and expenses (including without limitation reasonable attorney's fees and costs), whether or not involving a third party claim, which arise out of, relate to or result from (a) any breach of any representation or warranty of the County contained in this Agreement, (b) any breach of any covenant or other obligation or duty of the County under this Agreement or under applicable law, in each case whether or not caused by the negligence of the Department and whether or not the relevant claim has merit.

9. Reimbursement of Losses. The County will reimburse the Department for losses it may sustain arising out of performance of this Agreement. Such loss as sustained by the Department may be charged to the Apportionment in this or future fiscal years.

10. Termination of Agreement. The Department reserves the right to cancel this Agreement at any time deemed to be in the best interest of the Department by giving thirty (30) days written notice of such cancellation to the County. If this Agreement is canceled under this provision, then the County will receive any unpaid portion of the Apportionment from the Department for Local Government.

11. Access to Records. The County acknowledges and agrees that pursuant to KRS § 179.415(3) it shall retain all records of the expenditures of the Apportionment for a period of five (5) years and said records, including any books, documents, papers, records, or other evidence, which are directly pertinent to this agreement (records and other prequalification information confidentially disclosed as part of the bid process shall not be deemed as directly pertinent and shall

be exempt from disclosure as provided in KRS 61.878(1)(c), shall be subject to audit by the Department for Local Government or its duly authorized agent and made accessible by the County to the Department for Local Government or its duly authorized agent for said period of time in order to determine the proper expenditure of said money for the purposes required by KRS § 177.320(2). The County also recognizes that any books, documents, papers, records, or other evidence received during a financial audit or program review shall be subject to the Kentucky Open Records Act, KRS § 61.870 to KRS § 61.884.

12. Authorization. The Fiscal Court of the County shall pass a resolution adopting and approving the terms of this Agreement in the form of the resolution attached to this Agreement and made a part hereof. The County Judge/Executive of the County, and the Commissioner of the Department, or their authorized representatives, insofar as their actions are in accord with the laws of the Commonwealth of Kentucky, shall act for their respective parties on all matters arising under this Agreement.

13. Choice of Law and Venue. All questions as to the execution, validity, interpretation, construction and performance of this Agreement shall be governed by the laws of the Commonwealth of Kentucky. Furthermore, the parties hereto agree that any legal action which is brought on the basis of this Agreement shall be filed in the Franklin County Circuit Court of the Commonwealth of Kentucky.

2. **What qualifications (experience, skills, education) would benefit the library board?**

*I have a masters degree in teaching and I am currently in a Graduate certificate program at UK for Population Health.*

I am a past Outstanding Junior representative of Kentucky for the National Social DAR*

3. What is the library's most important role in the community?  
 I believe the library's most important role is to be the heart of learning, discovery, and community for the citizens.
4. What is your vision for the future of Anderson Public Library?  
 My vision for the APL is a vibrant epicenter where local citizens find ideas, information, friendships and resources to live their best life.
5. Identify one strength of Anderson Public Library and one area for improvement:
- o Strength: the facility: meeting space, a variety of resources, very accessible and welcoming.
  - o Improvement: the only improvement I see is to increase the capacity of citizens served and involved in library program
6. Describe one opportunity and one challenge for the library in the next five years:
- o Opportunity: With the recent community dinners, there is an opportunity to show case resources and community partners when those events are held.
  - o Challenge: One challenge is a lack of funding to support programs library patrons need.
7. Describe your commitment to intellectual freedom and equal access for Anderson County residents.  
 How would you define intellectual freedom? How would you respond to a community member concerned about materials they find inappropriate in the collection?  
 The library is a resource for all citizens in the county. If something is for everyone, then there will always be disagreements on priorities. Intellectual freedom is the right to live and learn in a way that's meaningful to the individual. Freedom for all means the individual has the right to pursue their own interests within the scope of the library's mission. Libraries have the resources to show us what is possible and to inspire us to create what was once thought impossible. It's important to me that we protect this part of our community.
8. Why are you interested in becoming a library board member?  
 I believe in the power of libraries to change lives. Libraries have the resources to show us what is possible and to inspire us to create what was once thought impossible. It's important to me that we protect this part of our community.

**Questions**

1. **How do you use the library?**  
Please include how long you have been a library user and specific ways you engage with library resources or programs:

I use the library primarily for checking out books, both for myself and for my mother-in-law who lives with us. I have also discovered the language learning services available through Transparent, though I haven't been industrious enough to make very much progress. I have also been amazed at the amount of archival resources available through the library's website and have been exploring some old radio shows and magazines. My home-owners association (Nautical Chase HOA) has also made use of the community room at APL. I have lived in Anderson County for a little less than two years, but I got a library card shortly after moving here and have been very impressed with the quality of the library and its services.

**2. What qualifications (experience, skills, education) would benefit the library board?**

Academically, I have a Bachelor's degree in English and a Master's degree in Public Administration. I think the English degree demonstrates a love of literature. The MPA gives me an insight into various aspects of operating government agencies. My experience directly after college was focused on evaluating government agencies for their economy and efficiency. I served for seven years with the US General Accounting Office. My wife and I both wanted to move back to Kentucky, so I worked as a Performance Auditor for the Auditor of Public Accounts for a short while, then transitioned to working as a Program Evaluator with the Legislative Research Commission (LRC). I worked with LRC for 25 years, working my way up to Deputy Director for Research and Communication. In that role, one of the offices under my jurisdiction was the Legislative Library. While I did not learn the nuts and bolts of the daily operation of the library, I did gain a keen appreciation for the service orientation of the staff. While the LRC library staff is small (only 3 while I was there), they continually impressed me by their ability to find even the most obscure requests for information. I think this is a trait common to many excellent libraries.

**3. What is the library's most important role in the community?**

I think the library serves a number of important roles in the community, but perhaps the most important role is as a provider of unbiased information. Today, information available on the internet is often skewed in any number of ways. AI has introduced added uncertainty about the quality or accuracy of information. It is invaluable to have a library where information can be accessed in a number of methods, not just the internet.

**4. What is your vision for the future of Anderson Public Library?**

My vision for the future of APL is of a multi-generational center of learning. The children's space in the building looks beautiful, and I often see seniors sitting at some of the computer terminals when I come in, so I think the library is well on its way to becoming such a place. However, I wonder if the library has formal connections with senior living centers here in Anderson County. I also wonder if reaching out to churches in the area to make them aware of all of the library's services would generate more users. Other age groups could be drawn in by reaching out to the community college, or civic groups like the Lions Club or Toastmasters. Broadening the user base will strengthen community support for the library.

**Identify one strength of Anderson Public Library and one area for improvement:**

- Strength: The variety of services available.

Improvement: Making people aware of all the services that are offered.

5. Describe one opportunity and one challenge for the library in the next five years:

- o Opportunity: To serve as a community hub for all of Anderson County. o
- o Challenge: Funding. Given potential budget issues at the state and federal level, funding may well be a significant challenge.

6. Describe your commitment to intellectual freedom and equal access for Anderson County residents.

How would you define intellectual freedom? How would you respond to a community member concerned about materials they find inappropriate in the collection?

I consider intellectual freedom to be essential to a functional democracy. To me, intellectual freedom means that all patrons can conduct research, access information from multiple viewpoints, and pursue their interests in a free and open manner. Any complaint from a member of the community needs to be taken seriously, and each complaint should be reviewed on its own merits. Complaints from parents about material their minor children may have accessed through the library are particularly troubling, and must be addressed in a very sensitive manner. Complaints by interest groups about material they want restricted so that no member of the community can access it may need to be handled differently. If I received a complaint, I would take notes about the specifics of the complaint, then discuss the problem with the head librarian and the board before offering any remedy to the person filing the complaint.

7. Why are you interested in becoming a library board member?

I have always had a love for libraries. When I was a child in Lexington, I was more excited about the bookmobile than the ice cream truck. Since I retired, I have been looking for an opportunity to serve in some way that would give back to the community. When I saw the notice for library board members I felt this job could combine something for which I have had a deep love, as well as giving me an opportunity to give back.

8. Are you able to attend monthly board meetings as required? Yes\*

\*Absence of a trustee from four regular monthly meetings of the board during one year of the trustee's term shall constitute automatic resignation. This is counted on a rolling year basis.
